

I cannot believe there is a chance I will receive those ANNOYING phone calls again - It has been the most peaceful time in my household since I signed up for "do not call" - I cannot imagine why anyone in this state would want mortgage people, plumbing people, survey people, home repair people, etc. call their number while they are eating dinner or just got home from a busy day at work - I even had a call once from a candy company who dealt in shipping to anywhere in the U.S. (come on) - If I need a service I will just use the phone book - I cannot believe it is not my RIGHT AS A CITIZEN not to have THESE PEOPLE BOTHER ME IN MY OWN HOME - What happened to my RIGHTS!!!!!!!!!!!!!!
